Minutes:

August 26, 2013 – postponed to next meeting.

September 11, 2013 – postponed to next meeting.

Discussion on Public Presentations

A draft of the URS power point presentation for the November 9<sup>th</sup> meeting was presented. Members requested that slides 13, 14 and 15 contain both source and dates for the data. Slide 16 references 2007 figures as provided by AECOM, this should be revised to provide current ridership information. Members suggested that the slides depicting a streetcar show two-way traffic being maintained and that the LRT would require a dedicated lane. Wilkes indicated that a larger catchment area is needed. He will reach out to West Windsor and get them involved.

Princeton Future will be providing a videographer to record the public presentation on November 9<sup>th</sup>. The recording of the November 9<sup>th</sup> public meeting will be posted on TV 30 with a link from the municipal website. Wilkes will speak with the Mayor and Administrator about taping the PB presentation in December. Staff will prepare an agenda for the November 9<sup>th</sup> meeting, a sign in sheet and comment cards. A second presentation/discussion is scheduled for the December 5<sup>th</sup> Planning Board meeting.

Next Meetings: November 27, 2013 and December 11, 2013 (tentative)
