

# ROBESON-WIGGINS-HAMILTON

## COMPLETE STREETS CORRIDOR STUDY

The Municipality of Princeton is undertaking a study of the Paul Robeson Place-Wiggins Street-Hamilton Avenue corridor, covering a distance of 1.1 miles from U.S. Route 206 to North Harrison Street. This comprehensive study will evaluate a range of potential improvements, including

- Pedestrian and school crossings
- Intersection improvements
- Traffic calming
- On-street parking
- Bicycle facilities

The study will include data gathering, community engagement, analysis of intersection performance and safety issues, and concept development and testing.

Local residents, businesses, and community members are invited to participate in the study.
