**RECONSTRUCTION OF BANK STREET AND NASSAU STREET (NJSH RT. 27) STREETScape**  
**(BAYARD LANE TO BANK STREET)**  
**Project Update Notice No. 11**  
**May 27, 2021**

Dear Bank Street Residents and Nassau Street Business Owners:

Earle Asphalt Company (EAC) is returning to Bank Street on **Monday, June 7, 2021**, weather permitting. First, EAC will replace curbs and sidewalk on Nassau Street. Next, EAC will replace curbs, tie in downspout/sump pump drains, and replace sidewalks on Bank Street starting on the eastern side (odd numbered homes) then proceeding with the western side. We are projecting all work to be complete on or about July 2, 2021, weather permitting.

We would also like to take this opportunity to remind residents to contact your service provider(s) ASAP, if you are planning on making underground utility upgrades to your water service or sanitary sewer, outside of your structure and behind the curb. This will ensure that your upgrades will be complete before we replace sidewalks and pave the roadway in **June**.

**Bank Street will continue to be closed to all through traffic each day while this work is taking place** to provide adequate maneuvering space for the contractor's vehicles and equipment; this is for both your safety and the contractor's safety. **On-street parking is PROHIBITED from 8:00 a.m. to 6:00 p.m. while work is taking place. Your vehicle must be moved before 8:00 a.m. The road may reopen earlier than 6:00 p.m.** Parking will be allowed in existing driveways; however, access to the street will be closed during work hours. Cars may return to Bank Street at end of the day. If you park in private parking lots on Bank Street, we recommend moving your vehicles before 8:00 a.m., should you need to leave during construction hours.

As mentioned in the neighborhood meeting and previous notices, we have arranged parking as follows:

- 25 parking spaces at Trinity Church designated for residents
- 7 parking spaces along the northern curb of Paul Robeson Place designated for residents
- 8 parking spaces on Mercer Street Extension designated for businesses
- 10 parking spaces along the northern curb of Paul Robeson Place designated for businesses

Please email [tsmith@princetonnj.gov](mailto:tsmith@princetonnj.gov) to register for a parking placard to utilize these parking spaces. The yellow parking placard must be displayed on the vehicles dashboard while parked at these locations **ONLY**. **These parking placards do NOT allow for parking anywhere else in town.** Overnight parking on Paul Robeson Place is permitted. Overnight parking will be permitted at Trinity Church on Sunday, Monday, Tuesday, Wednesday, and Thursday nights. Overnight parking at Trinity Church on Friday and Saturday nights will **NOT** be permitted. All parking areas will have signage to show permissible parking spaces.

Despite our best efforts to notify service providers, we advise that there will most likely be disruptions to garbage collection and recycling when work is taking place. Please report missed garbage pickups on Princeton's SeeClickFix system. Missed recycling pickups should be reported directly to the Mercer County Improvement Authority at (609) 278-8086.

Ian Baker, E.I.T., Construction Engineer, will be acting as the project manager; Inspectors Rich Decker and Tiffany Smith will be on-site each day while construction is occurring. Please visit the project webpage on Princeton's website at the [Bank Street Improvement Project webpage](#) for all of the latest project information and updates. To facilitate ease of communication regarding the project, please subscribe to receive text messages and/or email notifications on the municipal website at <https://www.princetonnj.gov/list.aspx>. To be added to the project E-mail list or if you require a translated version of this notice, please contact [jredeyoff@princetonnj.gov](mailto:jredeyoff@princetonnj.gov).

We appreciate your tolerance of the construction activities and everyone's cooperation while we work to improve the neighborhood!
