

December 10, 2013

Jeff Nathanson, Executive Director
Arts Council of Princeton
Paul Robeson Center for the Arts
102 Witherspoon Street
Princeton, NJ 08542

Dear Mr. Nathanson:

The municipality of Princeton, with a resolution of the Princeton Council, is pleased to support the Witherspoon Art Project proposed by the Arts Council of Princeton. This public art project at the AvalonBay Communities, Inc. housing development at the site of the old Princeton Hospital will provide an opportunity for professional artists to engage the community in a process that will honor local history and promote sustainability, bring diverse members of the community together and provide an artistic solution to a centrally located and highly visible site.

We appreciate the many contributions to our community made by the Arts Council of Princeton and look forward to working with you to realize the full potential of this art project that we believe has the potential to transform the site and creatively engage the community.

Sincerely,

Liz Lempert
Mayor

Resolution in Support of the Witherspoon Art Project

WHEREAS, this public art project at the AvalonBay Communities, Inc. housing development at the site of the old Princeton Hospital will provide an opportunity for professional artists to engage the community in a process that will honor local history and promote sustainability, bring diverse members of the community together and provide an artistic solution to a centrally located and highly visible site; and

WHEREAS, we appreciate the many contributions to our community made by the Arts Council of Princeton and look forward to working with the Arts Council to realize the full potential of this art project that we believe has the potential to transform the site and creatively engage the community

NOW, BE IT RESOLVED, that the Mayor and Council of Princeton, New Jersey are pleased to support the Witherspoon Art Project proposed by the Arts Council of Princeton, and pledge in kind support toward completion and installation of the project.
