ROBERT V. KISER, P.E.
Director of Engineering

MEMORANDUM

TO: Robert Bruschi, Administrator

FROM: Deanna Stockton, P.E., Assistant Municipal Engineer
Jack West, P.E., Land Use Engineer

DATE: July 24, 2014

SUBJECT: July 28, 2014 Parking Work Session

The Engineering Department is seeking further direction from Council regarding the harmonization of parking ordinances, specifically:

- **Overnight Parking**
For your information, attached is a working map that shows the current limit of No Overnight Parking (2 am – 6 am) by ordinance in both the former Borough and Township. Overlaid on the map is the No Parking at Any Time ordinance by street in both former municipalities (as applicable within the bounds of this map sheet). The third piece of this map is an overlay of the R4 and R-9 zones in town; these zones have the smallest permitted lot sizes / greatest potential density.

Also provided is a comparison of the ordinance administrative details of the residential permit parking in both former municipalities.

- **Days / Hours of Metered Parking**
Current Borough meter parking ordinances have varying hours of meter operations. Some meters require payment on Sundays, others do not. We would like feedback from Council as to whether they feel consistency of meter days and times is desired.

Princeton Council's review of these parking issues at their July 28, 2014 meeting will be appreciated.

Deanna Stockton, P.E., Assistant Municipal Engineer
