

**Princeton Municipal Arborist Notes**  
**June 15, 2015**

Landscaped areas in the municipal right of way that may be affected by potential design options:

- Valley Road - #70, #82/84 ( not sure ), # 94, # 150, # 158, # 196 -- # 247 wanted to know why she wasn't on the list
- 273 Jefferson

Municipal Street Trees to have an ISA (International Society of Arboriculture) Tree Risk Assessment performed:

- #84 Valley – 50" DBH London Plane tree
- #187 Valley – 42" DBH London Plane tree
- #173 Valley – 40" DBH London Plane tree
- #165 Valley – 38" DBH London Plane Tree
- # 214 Valley - 40" DBH Sugar Maple

If these trees are determined hazards, the Princeton tree crew will work on them as soon as scheduling allows. Once we know of a hazard to the public, we cannot wait until the project moves forward to get them down.

Pruning of existing street trees may take place in the near future also.
