

## **Pardoe Road Improvements Update 10-5-16**

**Tomorrow, October 6, 2016, weather permitting, S Brothers will mill and prepare Pardoe Road for paving. In order to provide for this work, Pardoe Road will be closed to through traffic from Mountain Avenue to Wilson Road and at Westerly Road during the working hours of 7:00 am to approximately 5:00 pm.** This work is expected to take 3-4 days to complete. A separate notice will be provided prior to final paving.

**Your driveways will not be accessible while this work is proceeding. Please park in a legal space on Wilson Road or Westerly Road (west of driveway for 28 Pardoe Road) prior to start of work on each work day, 7 am, and you may move your car back to your driveway at the end of work day.**

As part of the milling and paving work, asphalt driveway aprons will be repaired. Asphalt driveway aprons will be installed on stone driveways. Princeton installs these aprons in order to better retain stone on the driveways and minimize the potential migration to, and damage of, the road surface. No repair work is planned to paver and belgian block driveway aprons. If you have any questions about this work, please contact the staff members below.

In the event of inclement weather, work will proceed the following day, excluding Saturdays and Sundays. Pardoe Road will be closed during work hours, and will reopen at the end of each work day. Provisions will be made for emergency services vehicles and for continued services such as brush collection, mail delivery, garbage and recycling pick-up.

If you have any questions or concerns regarding this project, please contact Scott Hutchinson, Project Inspector, [shutchinson@princetonnj.gov](mailto:shutchinson@princetonnj.gov) or 609-731-2631.

Thank you,

Alina Ferreira, P.E., P.P., CME
