

Dear Residents,

Vollers Excavating and Construction will be conducting milling and finish-paving operations on portions of Poe Rd. on or about July 14, weather permitting. To allow for the paving operations to occur smoothly, we ask that you move vehicles from the roadway between the hours of 6am and 4pm and follow all posted detours. To maintain a safe working area for the crews, only residents directly affected by the detours will be allowed access within the posted detour limits. Thru traffic will not be permitted.

The affected areas will be along Poe Rd. from the intersection with Princeton-Kingston Rd (Rt. 27), to the intersection with Random Rd.

We apologize for any inconvenience that the construction operations will cause and are very grateful for your assistance in assuring that the construction operations can be completed smoothly.

Respectfully,

Dan Caldarone

Paving Superintendent

Vollers Excavating & Construction
