2016 SIDEWALK REPLACEMENT PROJECT

The Municipality of Princeton has contracted with S. Batata Construction, Inc. for sidewalk improvement work in various locations in the Municipality. This work includes replacement of certain concrete sidewalks on Birch Avenue.

The work is planned to start the week of June 6th, weather and scheduling permitting, on Birch Avenue. The concrete sidewalks slated for replacement will be marked prior to start of the work. The working hours are 7 am to approximately 4 pm, weekdays only. The work on Birch Avenue is anticipated to take 1 to 2 weeks to complete.

In the event of inclement weather, the work will proceed the following business day. No roadway closures associated with this work are anticipated at this time. Should a roadway closure be necessary, additional notice will be provided. Equipment and a trailer with materials may be parked within close proximity to the work area. Residents are advised to use caution within the work areas.

The Contractor will provide means of access for pedestrian and vehicular traffic at all driveways and buildings affected by the work of this contract. Whenever a driveway must be temporarily blocked due to construction, the Contractor will notify the affected property owner, in writing, of the anticipated beginning and ending times that access will not be available. Such notice will be given at least 24 hours in advance.

Provisions will be made for emergency services vehicles and for continued services such as brush collection, mail delivery, garbage and recycling pick-up.

If you have any questions or concerns regarding this project, please contact Chris Knigge, Project Inspector - cknigge@princetonnj.gov, or 609-468-7594 (cell).

If you have an emergency situation, please contact 911 immediately.

Your assistance in tolerating the temporary inconvenience associated with this work, which will lead to a permanent improvement of your neighborhood, is appreciated.

Sincerely,

Alina Ferreira, P.E., Construction Engineer
