July 8, 2016

Dear Valley Road Residents and Interested Neighbors,

In accordance with Executive Order No 210 issued by Governor Christie, the acting Commissioner of the New Jersey Department of Transportation, Richard T. Hammer, has ordered that contract work financed by the Transportation Trust Fund Account be shut down for at least seven (7) days, beginning at 11:59 pm Friday, July 8, 2016 (today).

Per this directive, all active work on Valley Road (Witherspoon Street to North Harrison Street), Municipal Aid Project MA-2014-00088, shall be ceased by 11:59 pm tonight for a period of at least seven days. The municipality's contractor ICUNJ will work with Princeton Engineering staff to ensure that the public right of way is safe and passable. If you have any questions or concerns regarding the storage of materials and equipment, please contact Rich Decker, Princeton Inspector, at 609-751-6826 or rdecker@princetonnj.gov.

We will provide further updates regarding the status of the project as we receive more guidance from the New Jersey Department of Transportation.
