## IMPORTANT NOTICE

### VALLEY ROAD (WITHERSPOON STREET - NORTH HARRISON STREET) NEIGHBORHOOD MEETING NOTICE – June 15, 2015

Dear Valley Road Neighborhood Residents:

A second neighborhood design meeting, chaired by Mayor Liz Lempert, will be held on Monday, June 15 at 7:00 pm in the Community Room located at 400 Witherspoon Street to continue the discussion on this project. We invite residents to come to this public design session for Valley Road. This meeting will continue to be a collaborative worksession where residents and representatives from various municipal Boards and Commissions can share information and provide insight regarding roadway needs and a vision for future improvements. If you are unable to attend this meeting, please email comments to [dstockton@princetonnj.gov](mailto:dstockton@princetonnj.gov) at your earliest convenience. Comments will be evaluated and incorporated into the design as appropriate.

At the May 12, 2015 Valley Road design meeting, the following three options were proposed to accommodate bicyclists:

1. Complete the existing 4' wide sidewalks and install sharrows on the roadway.
2. Widen the sidewalks to 6' wide asphalt sidepaths and install sharrows on the roadway.
3. Install an 8' wide asphalt sidepath of the south side of Valley Road and complete the 4' wide sidewalk on the north side.

We heard from the Valley Road residents that Option 3 is not desired. After the meeting, a fourth option was proposed by a Princeton resident for consideration: Install a 6' wide bike lane, buffered from the vehicle travel lanes with a planted median, and complete the 4' wide sidewalks. This proposal also includes a reduction of on-street parking and the relocation of parking to the north side of the roadway.

If you have not returned the Sump Pump and Utility Information Form, a copy is attached to the end of this notice for your completion and submittal. Sump pump, roof drain or private storm sewer pipes discharging near the street which cause icing problems may be connected into the storm sewer system if possible. The enclosed Utility form will assist us in locating these discharge points.

Residents are advised that the Municipality will be imposing a 5-year moratorium on any street openings once the work is completed. Therefore, if you plan to upgrade or install new utility services such as gas, water, electric, etc., you should contact the respective utility company at this time to make the necessary arrangements. A telephone list for the various project contacts is provided on the next page of this notice for your use.

If you have any questions or need additional clarification, please contact me at 609-921-7077 or [dstockton@princetonnj.gov](mailto:dstockton@princetonnj.gov). To facilitate ease of communication regarding the project, please email [jredeyoff@princetonnj.gov](mailto:jredeyoff@princetonnj.gov) to be added to the project email list.

Sincerely,

Deanna Stockton, P.E.  
Assistant Municipal Engineer
