

Valley Road project update 10-14-16

Please note some minor storm drainage pipe work may take place on Valley Road at Walnut Lane and at Harris Road during the week of October 17th. While this work is proceeding, Valley Road will be closed by-block in the areas of work. Additional notice will be provided prior to start of this work. We are still waiting for resolution of the Executive Order 210 which has delayed the paving work on this project.

Thank you,

Alina Ferreira, P.E., P.P., CME
