IMPORTANT NOTICE

Dear Cherry Valley Road Resident:

A neighborhood meeting will be held on Wednesday July 16, 2014 to discuss the planned improvement of Cherry Valley Road between Cherry Hill Road and Jefferson's Curve (see attached map). The meeting will be held at 7:00 PM in the Court Room of the Montgomery Township Municipal Building, 2261 Van Horne Road (Route 206), Belle Mead, NJ. All interested residents are invited to attend.

Proposed improvements to be discussed include the extension of the storm sewer system to eliminate the existing drainage ditches; repair, reconstruction and widening of the roadway; curbing and the extension of the existing bituminous walk path along the southern side of the road. Please note, these proposed improvements are subject to issuance of NJDEP and DRCC permits.

Representatives from the Montgomery Township Committee; Princeton Council; and Engineering and Police Departments from both Montgomery Township and Princeton will be available to discuss the proposed improvements, and answer any questions you may have.

Residents are advised that a 5-year moratorium on any street openings will be imposed once the work is completed. Therefore, if you plan to upgrade or install new utility services such as gas, water, electric, etc., you should contact the respective utility company at this time to make the necessary arrangements.

We invite you to attend this meeting to view the preliminary plans and to discuss any concerns you may have regarding the future improvement of your street.

Sincerely,

Robert V. Kiser, P.E.
Princeton Director of Engineering

Gail Smith, P.E.
Montgomery Township Engineer
