July 10, 2013

IMPORTANT NOTICE

Dear Ewing Street Neighborhood Residents:

On Thursday, July 11, 2013, weather permitting, Top Line Construction, the Municipalities Contractor, will be installing the final surface pavement on Ewing Street. The work is scheduled to begin at the North Harrison Street intersection and progress toward Valley Road. The work is planned to begin at 7:00 AM and is anticipated to be completed by the end of the day, weather permitting.

Residents are asked to remove vehicles from their driveways beginning on Wednesday night or early Thursday morning, prior to the start of work. Residents will not be permitted to park vehicles on Ewing Street due to the work being performed on the roadway. Residents will be allowed to park on Cuyler Road and Hillside Road, where work is not taking place. Vehicles should not be parked near the intersections in order to allow access for the paving equipment. Residents will have access to their driveways after 7 P.M. at the end of the day. **In the event of inclement weather, the work will proceed on the following day.**

After the final paving of the roadway is completed, you will be prohibited from using the road for a 2-hour period up until approximately 7 P.M. This restriction will prevent permanent marring of the blacktop during its "curing period". Residents will then be allowed to return to their driveways once the road is opened.

Work hours will be between 7:00 AM and 5:00 PM. Provisions will be made for continued services such as mail delivery, garbage and recycling pick-up.

If the Engineering Department can be of assistance, or if you have any questions prior to 9:00 AM, or after 5:00 PM, please contact Scott Hutchinson, Project Manager (cell phone #731-2631). Between 9:00 AM and 5:00 PM, you may contact myself at 921-7077.

Your assistance in continuing to tolerate the temporary inconvenience associated with this work, which will lead to a permanent improvement of your neighborhood is appreciated.

Sincerely,

Robert V. Kiser, P.E.
Director of Engineering
