## **IMPORTANT NOTICE**

### **VALLEY ROAD (WITHERSPOON STREET - NORTH HARRISON STREET) NEIGHBORHOOD MEETING NOTICE – September 29, 2015**

Dear Valley Road Neighborhood Residents:

You are invited to attend a third neighborhood meeting, chaired by Mayor Liz Lempert, which will be held on Tuesday, September 29 at 7:00 pm in the Community Room located at 400 Witherspoon Street. This collaborative work session enables residents and representatives from various municipal Boards and Commissions to share information and provide insight regarding roadway needs and a vision for future improvements. Comments will be evaluated and incorporated into the design as appropriate.

Information presented at the May 12, 2015 and June 15, 2015 Valley Road design meetings is available at <http://www.princetonnj.gov/engineering/Valley-Road-Improvement-Project.html>. The Engineering Department's evaluation of one-way streets and the "Options to consider for a safer Valley Road" has been posted to the website link above for public review prior to the September meeting.

The meeting agenda will include discussion on the following topics:

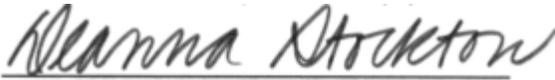

1. Previously presented design options – We will briefly review the Engineering Department's evaluation of the various options.
2. Engineering Department Recommendations
  - Sidewalks – Make necessary repairs to the existing sidewalks and completing the 4-foot wide sidewalk on the north side of Valley Road between Jefferson and Witherspoon.
  - Roadway paving width – Repave Valley Road to the same width as currently exists.
  - Bicycle Master Plan and Valley Road – The decision regarding where to install pavement markings (centerline striping, edge striping, bicycle, etc.) be deferred until the Bicycle Master Plan study has progressed further. This decision may be delayed until after the roadway has been repaved.
3. Other Items
  - Overhead street light upgrades – We compiled the existing light wattage information and PSE&G has reviewed and recommended upgrades that will be discussed at the meeting.
  - Storm sewer improvements – We have completed a video inspection of the storm sewer and field identified locations of private drains.

If you have not returned the Sump Pump and Utility Information Form, a copy is attached to this notice for your completion and submittal. Sump pump, roof drain or private storm sewer pipes discharging near the street which cause icing problems may be connected into the storm sewer system if possible. The enclosed Utility form will assist us in locating these discharge points.

Residents are advised that the Municipality will be imposing a 5-year moratorium on any street openings once the work is completed. Therefore, if you plan to upgrade or install new utility services such as gas, water, electric, etc., you should contact the respective utility company at this time to make the necessary arrangements. A telephone list for the various project contacts is provided on the next page of this notice for your use.

If you have any questions or need additional clarification, please contact me at 609-921-7077 or [dstockton@princetonnj.gov](mailto:dstockton@princetonnj.gov). To facilitate ease of communication regarding the project, please email [jredeyoff@princetonnj.gov](mailto:jredeyoff@princetonnj.gov) to be added to the project email list.

Sincerely,

A handwritten signature in cursive script that reads "Deanna Stockton". The signature is written in black ink and is positioned above a horizontal line.

Deanna Stockton, P.E.  
Assistant Municipal Engineer
