

Brush and Log Collection – Municipal-wide – Beginning November 13, 2017

This is an important public service message from the Princeton Mass Notification system.

The Princeton Department of Public Works will begin a municipal-wide collection of brush and logs on Monday, November 13, 2017.

Please place the material to be collected at the curb line by 7:00 am Monday morning. Please do not mix brush or logs with the loose leaves. It will not be collected and violation notices may be issued.

The Public Works Department will have several crews throughout the municipality collecting the material. Once the Public Works Department completes your street, they will not return until January 2018. After your street has been completed, please do not place any additional brush or logs at the curb until the next brush collections in January 2018.

Thank you for your cooperation.
