Director of Engineering

August 13, 2014

Important Notice

Dear Edgehill Street Neighborhood Residents:

A neighborhood meeting will be held on September 10, 2014 to discuss and coordinate the installation of a new water main along Edgehill Street. The meeting has been scheduled for 7:00 PM in the Community Room of the Municipal Building at 400 Witherspoon Street. All interested residents are invited to attend.

The items to be discussed at the meeting include the following:

- The plan and construction schedule for the new 8" watermain installation, fire hydrant, and individual house service replacements to be completed by the New Jersey American Water. The construction is anticipated to begin on or about September 15th.
- The current status regarding the PSE&G gas service upgrade poll.
- Preliminary cost information for the undergrounding of overhead electric and telecommunications lines.
- The schedule for future work including the resurfacing of the road.

Princeton Mayor Liz Lempert and representatives from the Engineering Department, Police Department, the Princeton Sewer Operating Committee, the New Jersey American Water Company, and the water line contractor (Vollers Excavating) will be available to discuss the project and answer any questions you may have.

Residents are advised that the municipality will be imposing a 5-year moratorium on any street openings once the work is completed. Therefore, if you plan to upgrade or install new utility services such as gas, water, electric, etc., you should contact the respective utility company at this time to make the necessary arrangements.

I invite you to attend this meeting to view the proposed improvement plans and to discuss any concerns you may have regarding this project.

Sincerely,

Robert V. Kiser, P.E.
Director of Engineering
