

Leaf Collection in Section 3 – Beginning November 30, 2015

This is an important public service message from the Princeton Mass Notification system.

The Princeton Department of Public Works will begin the collection of loose leaves in Section 3 on Monday, November 30, 2015.

Please place the loose leaves to be collected at the curb line by 7:00 am Monday morning. Once the Public Works Department completes your street, they will not return.

Please do not place brush or logs out at the curb line or mix brush or logs with the loose leaves. It will not be collected and violation notices may be issued.

A listing of all of the streets contained in Section 3, as well as all the sections and the entire schedule, including the collection of bagged leaves, is available on the Municipal Website – www.Princetonnj.gov

The Princeton Environmental Commission reminds you that the easiest and most environmentally efficient way to manage your leaves is to leave your leaves in your yard. Compost them, mulch them, or rake them into an unobtrusive area of your property. Broken down leaves will nourish your grass, plants and trees. For a more detailed description of how and why to leave your leaves, go to:

www.princetonnj.gov/EC/index.html

Did You Know:

- Leaves in the streets are unsafe to children, pedestrians, and cyclists
- Leaves left in the streets reach our streams and drinking water, producing a negative effect on both.
- Leaves on your property provide free nutrients for your yard & gardens

Leave the Leaves:

- Compost them: Rake them back into a wooded area or into a leaf corral in your yard
- Mulch them: Mow them into your lawn or put them on your garden beds for a nutrient kick and to suppress weed growth
- Bag them: If they have to leave your property
