MEMORANDUM

TO: Marc D. Dashield, Administrator

FROM: Deanna Stockton, P.E., Assistant Engineer

DATE: May 7, 2015

RE: **Parking Task Force - Overnight Parking Work Session**

At the July 28, 2014 Princeton Council meeting, a task force was created to review existing former Borough and former Township parking ordinances, especially related to overnight parking, in the effort to harmonize them for the consolidated Princeton. Councilmembers Butler, Crumiller and Miller volunteered to work with staff on this matter.

Through the course of four meetings from September 2014 to April 2015, staff and the Council liaisons discussed the following topics:

- Definition of “overnight”
- Existing boundary of “overnight” parking prohibitions
- Former Borough Criteria for “overnight” parking permits
- Former Township Criteria for residential parking permits

At this time, we respectfully request a public worksession with Princeton Council at their May 11, 2015 meeting to discuss the following three options relating to the overnight parking prohibition boundary:

1. Leave it as is
2. Modify the edges of the existing boundary to be contiguous with roadways
3. Expand it to encompass the entire municipality

A pictorial representation of each boundary option is attached. Please contact me or Jack West, P.E., Land Use Engineer, if there are any questions regarding this request.
