IMPORTANT NOTICE REGARDING WORK AT THE HOSPITAL SITE

This is an update regarding work at the Hospital Site. The following is proceeding at this time:

- Yannuzzi Corporation is removing from the inside of hospital buildings various items that are being prepared for recycling or disposal, including the following:
 - Carpeting
 - Non asbestos ceiling tiles
 - Lighting fixtures
 - Non asbestos pipe coverings
 - Copper water piping
 - Electrical wiring
 - Office partitionsThis work is anticipated to continue for 2-3 weeks time.
- Eisco Environmental is removing the underground fuel storage tanks and anticipates being completed within the next two (2) weeks. To date no petroleum contamination has been found.
- Yannuzzi Corporation has been preparing and constructing containment areas providing for the removal of asbestos from the inside of the hospital buildings. The actual removal of asbestos by double bagging and storing the material in a secure storage area in the hospital started today. As the work proceeds that bagged material will be loaded into special sealed containers and transported offsite for proper disposal. This work is anticipated to continue for approximately 12 weeks time.

The site is being monitored on a regular basis by representatives of Whitman Environmental, and the Municipal Building, Engineering and Health Departments. In addition, representatives of the Department of Labor visited the site as well. Workers have been found to be qualified and properly certified for the work that they are performing and have been observed to follow proper safety protocols.

Please note that no demolition work has been authorized to proceed.

If you have any questions or concerns please contact the Engineering Department at 609-921-7077 or at cceballos@princetonnj.gov.
