

RESOLUTION 21-138

Resolution to purchase 9 Barracuda Backup Server Cloud Unlimited Storage Licenses from Software House International (SHI) needed to maintain our network back-up processes in the total amount of \$17,118.00.

Whereas, Unlimited Barracuda Cloud Storage provides storage to replicate Barracuda Backup to the Cloud. Unlimited storage subscriptions allows replication of data on Barracuda Backup to our geographically distributed enterprise-grade data centers to store data safely. This includes offsite vaulting which allows extended retention by moving multiple revisions off of Barracuda Backup and into Barracuda Cloud.

Whereas, We are required to have an offsite backup within 10 miles of the municipality of Princeton. Currently we have an old backup system located in the municipality of Franklin Township, however it is not operational nor do we have access to it. Having the unlimited storage will provide reliable remote backups as well as support from Barracuda should there be issues.

Whereas, The purchase price for 9 licenses is \$17,118.00 (\$1902.00) per license and available funds in account number 0120120125293.
