**ROADWAY RESURFACING PROJECT 2021
IMPORTANT NOTICE
SEPTEMBER 8, 2021**

Dear Neighborhood Property Owners and Residents:

On or about September 7, 2021, Princeton’s contractor, Earle Asphalt Company of Farmingdale, New Jersey, will begin resurfacing the following eleven (11) roadways in town.

Roadway	Limits	Duration of Work*	Work Hours
Heather Lane	Great to Cherry Valley	3 days	7:00 a.m. – 6:00 p.m.
Great Road West	Stuart to Great Road East	4 days	
All Saints	Van Dyke to the Cul-de-sac	5 days	
Crooked Tree**, Woods Way, Beech Hill	Entire Neighborhood	3 days	
Leabrook	Braeburn to pavement joint in front of 77 Leabrook	4 days	
Newlin Haslet	Olden to Springdale	4 days	
Jefferson Road	Valley to Mount Lucas	12 days	7:00 a.m. – 6:00 p.m. for concrete repair operations and 8:30 a.m. – 3:30 p.m. for paving operations
Jefferson Road	Franklin to Valley		
Henry Avenue	Witherspoon Street to Jefferson		

* The duration of work is an estimated total number of ‘working’ days (Mon-Fri), conditional upon dry weather conditions.

** The schedule for resurfacing Crooked Tree Lane is dependent upon the reconstruction of the storm sewer inlets by Princeton’s 2021 Storm Sewer Improvements contractor, Messercola Excavating.

Working hours for all roadways will be between 7:00 a.m. and 6:00 p.m., except for Jefferson and Henry where roadway milling and paving activities will be between 8:30 a.m. and 3:00 p.m.

Residents will observe the contractor's equipment being delivered and staged prior to work starting. The first phase of work is to remove the existing pavement surface from the roadway; the contractor has advised that roadways will be open to all traffic while removing the existing pavement surface. For everyone's safety, please use caution when driving in the work zones and be aware of construction equipment operating on the roadways. Please allow extra time for potential delays caused by construction activities.

The second phase of work is to install the new pavement surface, and it is scheduled to take place the day following the removal operation, weather permitting. **Residents will have limited vehicular access to their property.** Physical paper notices will be stuck on residents doors prior to installing new pavement 24 hours in advance. If you require the use of your vehicle during the workday while paving is underway, residents should plan to move their vehicles to an adjacent side street prior to 7:00 a.m. In the event of inclement weather (wet conditions), the contractor will postpone work until the next day with dry weather conditions. Once repaved, we request that residents stay off the new pavement until 8:00 p.m. Do not walk across or allow pets to walk on the fresh pavement during the workday, as it retains heat and may damage your shoes or injure your pet's feet. After 8:00 p.m., residents should avoid turning the wheel while their vehicle is standing still as this will tear the new pavement surface.

In order to avoid disruptions to garbage collection and recycling when work is taking place, Princeton will be notifying service providers in advance. In the event trash or recycling pickup is missed, please report missed garbage collection via SeeClickFix, and missed recycling collection to the Mercer County Improvement Authority (contact information for both on page 3). In case of an emergency, the contractor will accommodate all emergency vehicles into a work zone during paving. If special accommodations are required, please advise us at your earliest convenience.

Ian Baker, Construction Engineer, is the main point of contact. Ian Baker and Richard Decker, Inspector, will be on-site daily while the contractor is working to observe the work. A project contact list is provided on the next page of this notice. Please visit the project webpage on Princeton's website at the [Roadway Resurfacing webpage](#) for all of the latest project information and updates. To facilitate ease of communication regarding the project, please subscribe to receive text messages and/or email notifications on the municipal website at <https://www.princetonnj.gov/list.aspx>. Princeton Engineering Department will post updates to the schedule, including work hours, on the webpage.

We appreciate tolerance of the construction activities and everyone's cooperation while we work to improve your neighborhood!
