### **IMPROVEMENTS TO LINDEN LANE AND SPRUCE STREET Project Update Notice No. 29 November 24, 2021**

Dear Linden Lane and Spruce Street Neighborhood Property Owners and Residents:

Final paving is complete on Linden Lane and Spruce Street. Residents may resume normal parking this evening. **No work will be taking place over the Thanksgiving holiday weekend (November 25<sup>th</sup> through 28<sup>th</sup>).**

The below sequence of construction activities is weather dependent conditional upon dry weather and temperatures that are 40°F and rising. In the event of inclement weather (wet and cold conditions), the contractor will postpone work until the next day with ideal weather conditions.

**On Monday, November 29<sup>th</sup>, the entire length of Maple Street (Nassau Street to the Hamilton Street Condominiums) will be closed to all traffic for milling and pavement preparation, 7:00 a.m. to 6:00p.m. ALL MAPLE STREET residents should park their vehicles on adjacent side streets (Spruce, Linden, Hamilton, Pine, Chestnut, Moore, etc.) if they need to use them during construction hours. Residents may leave their vehicles parked in their driveways if they do not plan to utilize them during construction hours.**

**On Tuesday, November 30<sup>th</sup>, the entire length of Maple Street (Nassau Street to the Hamilton Street Condominiums) will be closed to all traffic for final pavement installation 7:00 a.m. to 6:00 p.m. Again, ALL MAPLE STREET residents should park their vehicles on adjacent side streets (Spruce, Linden, Hamilton, Pine, Chestnut, Moore, etc.) if you need to use them during construction hours. Residents may leave their vehicles parked in their driveways if they do not plan to utilize them during construction hours.**

The contractor will knock on the front doors within the work zone prior to work beginning to give residents one last opportunity to relocate their vehicles to adjacent side streets. School buses will drop off students at an intersection nearest to their normal bus stop. The pavement will require time to cool down. Roads will be open at the end of each workday, but we request that residents stay off the new pavement until 8:00 p.m. After 8:00 p.m., residents should avoid turning the wheel while their vehicle is standing still as this will tear the new pavement surface.

For everyone's safety, please use caution when driving in the work zones and be aware of construction equipment operating on the roadways. Sidewalk detours will be installed while work is taking place if pedestrian traffic is to be disrupted. Do not walk across or allow pets to walk on the hot pavement during the workday, as it retains heat and may injure your pet's feet or damage your shoes. Please allow extra time for potential delays caused by construction activities.

**If Princeton residents need to park on surrounding streets during construction work hours or overnight on the street, a temporary parking placard can be issued.** Please contact Tiffany Smith at [tsmith@princetonnj.gov](mailto:tsmith@princetonnj.gov) or Ian Baker at [ibaker@princetonnj.gov](mailto:ibaker@princetonnj.gov), to obtain a placard. Those who already have parking placards, may continue to use them during pavement construction despite the November 25,

2021 date; Parking enforcement will be notified and vehicle information will be given to parking enforcement and police to prevent tickets being issued.

Garbage and recycling service providers have been notified of construction. Despite our best efforts, we advise that there will most likely be disruptions to garbage collection and recycling when work is taking place. Please report a missed trash pickup via SeeClickFix, or report a missed recycling pickup to Mercer County Improvement Authority (contact information for both on page 3). In cases of an emergency, the contractor can accommodate all emergency vehicles into a work zone. Access for services and deliveries within the construction limits shall be maintained at all times during construction. If special accommodations are required, please advise us at the earliest convenience.

Ian Baker, Construction Engineer, is the main point of contact. Tiffany Smith, Engineering Inspector, will be on-site daily while the contractor is working to observe the work. A project contact list is provided on the next page of this notice.

We will send out regular notifications, by email regarding the project progress, changes to access, etc. as the work resumes. These notices will also be posted on the project website at <https://www.princetonnj.gov/238/Linden-Lane-Spruce-Moran-Avenue-Maple>. To facilitate ease of communication regarding the project, please contact [jredevooff@princetonnj.gov](mailto:jredevooff@princetonnj.gov) to be added to the project email list.

We appreciate your tolerance of the construction activities and everyone's cooperation while we work to improve the neighborhood!
